

DURGADEVI YALLA

Python Developer

📞 +91 8008610463 ✉️ durgadeviyalla1610@gmail.com 🌐 github.com/devi1610 🔗 linkedin.com/in/durgadevi-yalla

PROFESSIONAL SUMMARY

Aspiring Python Developer with hands-on experience in building backend applications and RESTful APIs using Flask, FastAPI, and Django. Skilled in Python, MySQL, and API integration with a strong foundation in object-oriented programming and data structures. Experienced in automation, real-time applications, and debugging. Seeking an entry-level Python Developer role to develop scalable and efficient backend systems.

EDUCATION

Rajiv Gandhi University of Knowledge Technologies, Ongole <i>B.Tech in Electronics and Communication Engineering</i>	2021 – 2025 <i>CGPA: 7.82</i>
Rajiv Gandhi University of Knowledge Technologies, Ongole <i>Pre-University Course (MPC)</i>	2019 – 2021 <i>CGPA: 9.34</i>

TECHNICAL SKILLS

Programming Languages: Python, SQL

Web Technologies: HTML, CSS, JavaScript

Frameworks: Flask, FastAPI, Django

Backend Development: RESTful APIs, CRUD Operations, API Integration

Databases: MySQL

Core Concepts: Object-Oriented Programming(OOP),Data Structures and Algorithms, Exception Handling

Tools: Git, GitHub, VS Code

Additional: OpenCV,Automation Scripting

INTERNSHIP EXPERIENCE

Python Backend Programming Intern <i>Mainflow Services and Technologies</i>	May 2024 – July 2024 <i>Remote</i>
---	--

- Developed Python automation scripts for data processing and file handling, improving workflow efficiency by 25.
- Designed modular Python components using **Object-Oriented Programming**.
- Utilized Git for version control, including branching and pull requests for collaborative development.
- Improved debugging and exception handling to enhance application reliability.

PROJECTS

Hand Gesture Media Control | Python, OpenCV, PyAutoGUI

- Developed a real-time gesture recognition system using OpenCV.
- Processed live webcam input to detect hand movements with 95% accuracy.
- Integrated PyAutoGUI to control system media functions(play/pause,volume.
- Implemented computer vision techniques like contour detection and bounding boxes.

Student Database Management System | Python, MySQL, Tkinter

- Designed and Developed a backend application to manage student records using Python and MySQL.
- Implemented CRUD operations for efficient data handling.
- Added input validation to reduce errors and improve data accuracy.
- Built a user-friendly interface using Tkinter.

CERTIFICATIONS

- IBM – Python for Data Science
- edX – Machine Learning and AI
